About Me

I'm Rangavali Shaik, a creative digital professional from Andhra Pradesh, blending skills in graphic design, video editing, copywriting, and social media strategy to craft engaging brand experiences across platforms. I specialize in creating content that's visually sharp, emotionally resonant, and optimized for Gen Z audiences. My approach combines aesthetic intuition with data-driven thinking, ensuring every design or campaign has both style and substance. I thrive in fast-paced environments where creativity meets precision, and I'm always exploring new tools and trends to stay ahead of the curve.

Experience

code works (intern)

2025

Successfully enrolled in and completed the Python Core course offered by Code Works, gaining foundational knowledge and hands-on experience in Python programming. Developed practical skills in scripting, data handling, and logic building through real-world exercises and guided projects. Strengthened problem-solving abilities and built confidence in writing clean, efficient Python code for automation and web-based tasks.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering
LIMT, Andhra Pradesh
